Pratiques de pointe / Leading Practices

Les thématiques suivantes font l'objet d'une surveillance particulière visant à alimenter la réflexion des équipes des pratiques de pointe du CAU en gérontologie sociale œuvrant auprès ou avec des personnes âgées.

Les publications des **membres réguliers** et des membres collaborateurs du CREGÉS qui ont été signalées précédemment seront répétées dans les prochaines sections.

We monitor the scientific literature related to the following leading practices in order to support the CAU's social gerontology teams working with or for older adults.

The publications of CREGÉS **full** and associate members that were previously reported will be repeated in the next sections.

Maltraitance des personnes âgées, âgisme / Mistreatment of Olders Adults, Ageism

Articles portant sur la maltraitance touchant les personnes âgées, quelle que soit sa forme (violence ou négligence). Incluant la maltraitance physique, sexuelle, psychologique ou financière, la violation des droits et l'âgisme.

Selected articles look at the various forms of mistreatment (physical, sexual, psychological or financial), as well as the violation of seniors' rights and ageism.

Proches aidants / Caregivers

Les articles signalés ici portent sur les problématiques auxquelles doivent faire face les proches aidants qui accompagnent ou prennent en charge (en tout ou partie) les besoins d'une personne âgée et ce indépendamment de leurs liens familiaux. Ne sont pas retenus ici les articles portant sur les aidants professionnels (rémunérés) ou les bénévoles faisant partie d'une organisation reconnue (ex : Croix Rouge).

Selected articles examine the problems faced by caregivers who provide full or partial care to an older adult, irrespective of family ties. We do not include articles on professional (paid) caregivers or volunteers affiliated with an organization (e.g., the Red Cross).

Prévention-promotion santé vieillissement / Prevention and Health Promotion for Seniors

Dans le cadre des travaux sur la prévention et la promotion de la santé sont référés spécifiquement les articles en lien avec l'activité physique, les activités cognitives, la prévention des chutes, et les habitudes de vie des personnes âgées vivant dans la communauté.

Selected articles support efforts to promote healthy living and prevent disease among seniors. Topics include physical activity, cognitive training, fall prevention and the lifestyle habits of seniors living in the community.

Santé mentale / Mental Health

Cette section est consacrée aux articles en lien avec les personnes âgées souffrant de problèmes de santé mentale (Dépression majeure, schizophrénie, etc). Sont cités seulement occasionnellement des articles portant sur les personnes atteintes de démence (maladies neurodégénératives au sens du DSM V comme la maladie d'Alzheimer, etc.). Sont retenues plus particulièrement les études réalisées dans la communauté.

Selected articles focus on seniors suffering from mental health issues (major depression, schizophrenia, etc.). Most of the studies are carried out in the community. Only occasionally do we select articles on people affected by dementia (neurodegenerative diseases as defined by the DSM V, such as Alzheimer's, etc.).

Soins palliatifs / Palliative Care

Sont signalés ici les articles portant sur les aspects psycho-sociaux liés aux soins palliatifs (Les articles purement bio-médicaux ne sont pas retenus). Aucun milieu n'est exclu, mais une attention particulière est apportée sur les soins à domicile et sur les problématiques liées au deuil.

Selected articles examine the psychosocial aspects of palliative care (purely biomedical articles are excluded). Although we include all care settings in our selection, we pay particular attention to home care and bereavement issues.
